Mill Valley, California

Dear Dan:

Enclosed are the answers to interrogatories executed on behalf of the Secretary of Defense, the Attorney General and the FBI, together with the order in the Halperin case permitting us to have this information.

We should consider together whether an action should not be instituted against the plumbers group and, possibly, Nixon. When we meet in connection with the planned session at the Special Prosecutor's Office, we can discuss it.

Best,

Sincerely,

lbb/gs
